Good Technology is adding new device support every day. Please visit www.good.com for the latest list of supported devices.

Service Overview

The Good Mobile Messaging service offers a rich up-to-date, Outlook-like experience on a variety of popular wireless devices.

Good Mobile Messaging synchronizes your DataSol Hosted Exchange data to your wireless, Good Mobile Messaging Enabled device. This includes secure, real time synchronization of email, calendars, contacts, notes, tasks and more. This means nearly anything you can do on your desktop or notebook computer -- browse the Web, manage Outlook, edit MS Office documents -- can be done wirelessly, in real-time, through an interface similar to a laptop.

Take Good Mobile Messaging with you wherever you go. Whether traveling in the US or overseas, Good Mobile Messaging works with many wireless carriers including AT&T, Cingular, Sprint, and T-Mobile.

NOTE: You must have first established DataSol Hosted Exchange service before you can order Good Mobile Messaging.

Features

- Always up-to-date information with no cradles required
- Real-time, cradle-free synchronization of Inbox, calendars, contacts, tasks and other Outlook features
- Rich attachment viewing including Word, Excel, PDF, PowerPoint and integration with other standard applications through our Partner Portal which offers a rich out-of-office experience. (Some document types may require third party plug-ins depending upon device)
- Project PowerPoint presentations directly from your device
- Receive faxes in TIFF format
- Familiar laptop-like visual experience across all devices
- Multi-tasking between applications increases efficiency
- AES security encrypts every message
- Desktop software-free design

System Requirements

- Good Mobile Messaging Supported Handheld Device (see list above)
- Airtime subscription from Wireless Service Provider (i.e. AT&T, T-Mobile, Sprint, etc.)
- Active DataSol, Inc.; Hosted Exchange Account (mailboxes must have been in existence for at least 24 hours old in order for our technicians to provision Good Mobile Messaging service).
