

## Windows Mobile ActiveSync

Now you can synchronize your DataSol, Inc. account wirelessly with your Internet-enabled Pocket PC or Windows Mobile powered SmartPhone device!

\*requires DataSol, Inc. Hosted Exchange Service

**\$3.00/Month\***

One Year Term no activation fee

### Service Overview

When you are away from Outlook, you can now use your Internet-enabled Microsoft Pocket PC 2002/2003 or Microsoft SmartPhone device to stay connected to your DataSol, Inc. mailbox.

By using the Windows Mobile Wireless ActiveSync, you can synchronize your DataSol, Inc. inbox, calendar and contacts anywhere you are. You can also compose new emails, calendar appointments and contacts and send them wirelessly.

Windows Mobile ActiveSync Service is integrated with your existing DataSol, Inc. email-hosting service. Stay in touch and be productive on your Windows Mobile device - anywhere!

NOTE: You must have first established DataSol, Inc. Hosted Exchange service before you can order Wireless ActiveSync Service.

### Features

- Wireless synchronization of your DataSol, Inc. Inbox, contacts and calendar, virtually anywhere!
- View email attachments (formats supported: Microsoft Word, Microsoft Excel, etc.)
- Integrates transparently with your existing DataSol, Inc. email account
- 128-Bit SSL Encryption

### System Requirements

- All Microsoft Windows Mobile Devices (Pocket PC and SmartPhone versions)
- Wireless Internet access on the mobile device. (May require separate subscription from your wireless carrier - AT&T, T-Mobile, Verizon, Sprint, etc.)
- ActiveSync Desktop Software
- Outlook 97/98/2000/XP/2002/2003
- Active DataSol, Inc. Hosted Microsoft Exchange Account

### Service Fees

Windows Mobile ActiveSync Service (Monthly) **\$3.00\* Billed in Annual Increments**

\*Fees are in addition to normal monthly DataSol, Inc. mailbox fees.  
(Requires DataSol, Inc. Hosted Exchange Service)
