### Service Overview

## Empower your team with DataSol mobile email\*

Stay in touch, and be productive—whenever you work. Regardless of your location, you can use your iPhone to stay in touch with your DataSol hosted Exchange email service.

\*DataSol hosted Exchange email service required.

### Features

## Enhance Productivity with ActiveSync

With ActiveSync, your iPhone has instant, synchronized access to your Outlook email, calendars, and contacts—anytime, anywhere. That means you can compose, send, receive, and reply to email wherever you are, and have all of your messages delivered instantly. Updating your Outlook calendars, contacts, and email remotely has never been faster—or more reliable.

## Constant Contact

- Receive and reply to Outlook Email instantaneously
- View email attachments on the fly, in Microsoft Word, Excel, PowerPoint
- Check your calendar, plan, and schedule meetings
- Look-up personal contacts or view your company Global Address List in Exchange
- Integrates transparently with your existing DataSol, Inc. hosted Exchange email

account

ActiveSync, your email finds you

- Push technology: no prompting to get email or data—with Exchange Server and ActiveSync, your email finds you
- Support for HTML messages
- Set Out-of-Office assistant from your device

## Secure

- 128-bit SSL encryption
- Password Protection
- Over-the-air (OTA) search of your remote mailbox

## System Requirements

ActiveSync supports all Microsoft Windows Mobile Devices, e.g. Pocket PC and SmartPhones. You must be a subscriber of DataSol email services to activate ActiveSync, and you will need to provide your own Windows Mobile device and carrier service. Our customers typically purchase these from their chosen mobile phone carrier.

System requirements include:

- Wireless Internet access on the iPhone (requires separate subscription from AT&T)
- DataSol hosted email Exchange account with ActiveSync activated

## Service Fees

iPhone Active Sync Services (Monthly) **\$3.00\*** Annual Subscription required

\*Fees are in addition to normal monthly DataSol mailbox fees
